A with the intention of gaining sympathy for the  
 minimising punishment - the terrible  
 demand caused by the very fact of my experience  
 is sufficient to insure that. I am doubtful that  
 I shall discuss all work in the period from  
 1946 till early this year. All that I have done  
 now to assemble them in a roughly coherent  
 form. After all, while I was busy at P. & H.  
 & concerned with my love for my home  
 & the possibility of overwork I could not be  
 expected that I would sit down ~~on a~~  
 on a detailed period & reflect on them -  
 I sometimes did so, but inevitably the  
 the ~~incisions~~ ~~sketches~~ skeleton of the possibility  
 of my exposure & well would intrude itself

 decided. But here at Fulmerbury, with my  
 mind perfectly calm & at rest, having done  
 out ~~the~~ ~~details~~ ~~of~~ ~~evidence~~, I can  
 now think clearly - on things about which,  
 it is a great place in which to organize  
 one's thoughts & to express oneself exactly.  
 To be sure, there are still some doubts:

one - again concerning Catholicism; after the  
 now the much based for support were removed  
 & the situation only got worse. The pres-  
 ention of Catholicism was intensified as was  
 the destruction of churches; & this was not  
 only in the U.S. but in all satellite countries  
 & countries such as Romania, Poland  
 & Hungary.

Two; and regarding the above countries, the  
 airwaves, political & military of which  
 had been a terrifying spectacle, and  
 such events were always followed by  
 the setting up of a police state with the

Yakovlev (John) & I discussed the affair. We both thought it was such a great thing. The course the debaters, series of Russian notes & the obviously obstructive tactics of Strong, Ho, Smith & Viskumsky, and as a technical man who deals in facts the content something of the obvious ~~implications~~ lies & restricted qualifications made a number of points and one seemed such a wonderful idea added to this there was the ~~two~~ previously mentioned two - about the two - while reporting aspects of the Soviet press. him - he was, in fact, the only safe agent  
with whom I never got along. But still  
as with the other two, I had to ~~gradually~~

Don't forget

Now to the man I consider the most im-  
portant of all of the Russians, Leonid M.  
Lentov, whom I only knew a few (though on  
several occasions I heard him with the alias of  
George & Levinson). He was about my height  
but had a much heavier build & structure &  
musculature. He had a sweetly enigmatic, almost  
russian-like intellect, black dancing eyes  
& a nose & face really resembling a friendly  
bull. Leonid was the only one of the  
Russians who could have passed for an  
American (possibly on account of the length of  
his stay in this country) both in the manner  
in which he spoke, dressed & acted - &  
especially in the way in which he would  
sit back; for some reason foreigners were  
what they felt as Americans do, even  
though <sup>and to</sup> they did not do anything to them. Leonid  
was <sup>an</sup> a mechanical engineer &  
a mathematician by trade. He had  
read widely in the English literature & was  
especially familiar with the works of  
Charles Dickens, Fanny Hill, Cooper,  
Ivanhoe & the poets Wordsworth,  
Browning & Keats ("a mediocre",  
he said, "a bit of a faker"), Robert  
Frost & Edgar Lee Masters.

I heard one day the name of "The Last  
Dancer".

On some occasion <sup>when</sup> he was very

① It has been well clear that this man was a  
dead end for me, but it was even more  
so for them. His whole life was a series  
of waiting ~~and~~ <sup>watching</sup> apprehensively on street  
corners in various other cities in all parts of  
the state, waits which were of the futile  
of moments extremely dangerous, as they  
in cheap <sup>and</sup> ~~rest~~ <sup>rest</sup> ~~house~~ <sup>houses</sup> ~~rents~~ <sup>rents</sup>, ~~and~~ ~~to~~ ~~be~~ ~~seen~~ ~~by~~ ~~any~~ ~~one~~,  
pleading with a threatening attitude people,  
The F.B.I. has agreed with me in this  
report, & as I do, they believe that he was  
a threat & very able man (they have  
intimated that they have had other con-  
firmation of this in addition to my  
statements.)

mean, he would complain of the way in which  
 that he was doing it in particular would  
 be critical of the paid agents with whom  
 he worked — apparently there were many  
 such, for from news articles on a trial  
 man, also it was evident (I knew him  
 from July of 1940 till February of 1944)  
 that he was a very business man, one who  
 longed to be in the United States; at every  
 opportunity he would go to the U.S. Embassy  
 offices at my drive General Sweeney & then  
 would discuss for the U.S. Embassy afterwards  
 one he would tell me of how much joy  
 he had got out of being in the Russia  
 & how he regretted that he was too busy  
 to take advantage of the few opportunities  
 which <sup>had</sup> <sup>been</sup> <sup>available</sup> for the moment but this was a  
 happy & skillful nature & over the  
 years we accumulated a store of memories  
 & private jokes concerning our past travels  
 & difficulties with various people — not  
 as two <sup>very</sup> <sup>close</sup> <sup>friends</sup> often do.

and then would moving about and  
 one one occasion I came to New York  
 for things in <sup>the</sup> <sup>U.S.</sup> <sup>with</sup> <sup>a</sup> <sup>fruitless</sup>  
 effort to obtain a report from one of the  
 the synthetic rubber of <sup>the</sup> <sup>U.S.</sup> (I had had  
 occurring one that the data was ready, but  
 actually he had not even begun to write  
 therefor). The last trip was on a Friday  
 night & I met <sup>my</sup> <sup>British</sup> <sup>superior</sup>  
 afterwards & words, "and absolutely promise  
 to have the report complete tomorrow, let's  
 make the arrangements to meet." at this

for personal service, he became especially  
 so anxious & tried in every way to cut  
 down on my trips, but his greatest concern  
 seemed to be over the fact that I had no  
 wife & family of my own. In about the  
 1940s because of this work fast, he said,  
 "but it's not natural or good; you are not  
 an ascetic & you have natural  
 instincts & desires. We must find some  
 solution to this problem, obviously you  
 cannot take on the responsibility of marriage  
 & still do this work (and do not think  
 that you would be able to realize the re-  
 sponse you are making). So, as near as  
 it is possible, you will see & for all  
 that dealing with these things becomes  
 & might completely forget it all. But  
 entirely, and you can then go ahead &  
 run around with girls every night in the  
 week (even as you are the things you  
 do now) & then pick out a nice one & get married  
 & have children." and I would continue  
 saying that I could not continue in doing  
 work indefinitely - it would have already  
 been in it too long - it would not only  
 consist too much of an ordeal, but inevitably  
 a slip would occur, possibly not even one  
 of my own making, & the exposure would follow.  
 How right he was. It is possible too that this  
 repeated logic for a family is not that caused  
 me to tell both Mr. & Mrs. Heineken,  
 Dr. Fuchs's sister-in-law (Cambridge, Massachusetts),  
 that I was married & the father of twins. ~~It was~~

I was early morning and I was not in on the

This concludes the events leading up to my telling of the FBI the story the day is May 14<sup>th</sup> of this year. When Curiously enough several agents with ~~the~~ ~~names~~ first walked into the Hunt Station late the afternoon, even before they showed me their identification, I knew who they were. And when they said they would like to speak to me about all matters — and other matters, that does sound like a ~~trick~~ ~~and~~ ~~not~~ ~~at~~ ~~all~~ ~~convinced~~.

So in the ~~morning~~ ~~of~~ ~~the~~ ~~next~~ ~~day~~ ~~I~~ ~~kept~~ ~~repeating~~ ~~the~~ ~~story~~ ~~and~~ ~~I~~ ~~had~~ ~~convinced~~ ~~about~~ ~~how~~ ~~and~~ ~~not~~ ~~a~~ ~~how~~ ~~I~~ ~~had~~ ~~all~~ ~~along~~ ~~for~~ ~~at~~ ~~least~~ ~~(a~~ ~~man~~ ~~I~~ ~~actually~~ ~~know)~~ ~~and~~ ~~as~~ ~~I~~ ~~had~~ ~~in~~ ~~1947~~ ~~I~~ ~~tried~~ ~~desperately~~ ~~to~~ ~~create~~ ~~the~~ ~~illusion~~ ~~that~~ ~~I~~ ~~was~~ ~~doing~~ ~~all~~ ~~in~~ ~~my~~ ~~power~~ ~~to~~ ~~cooperate~~ ~~it~~ ~~seemed~~ ~~to~~ ~~be~~ ~~good~~ ~~and~~ ~~but~~ ~~it~~ ~~was~~ ~~an~~ ~~idea~~ ~~to~~ ~~have~~ ~~questions~~ ~~concerning~~ ~~how~~ ~~I~~ ~~spent~~ ~~my~~ ~~vacations~~ ~~and~~ ~~my~~ ~~trips~~ ~~to~~ ~~N.Y.~~ ~~with~~ ~~my~~ ~~brother~~ ~~on~~ ~~the~~ ~~long~~ ~~business~~ ~~and~~ ~~to~~ ~~be~~ ~~in~~ ~~(Hunt~~ ~~Water~~ ~~Butler)~~ ~~all~~ ~~of~~ ~~which~~ ~~had~~ ~~been~~ ~~perfectly~~ ~~legitimate~~ ~~and~~ ~~questions~~ ~~such~~ ~~as~~ ~~were~~ ~~you~~ ~~are~~ ~~well~~ ~~by~~ ~~the~~ ~~ministry~~ ~~were~~ ~~to~~ ~~put~~ ~~it~~ ~~and~~ ~~my~~ ~~nothing~~ ~~that~~ ~~at~~ ~~all~~ ~~about~~ ~~that~~ ~~very~~ ~~due~~ ~~to~~ ~~question~~ ~~that~~ ~~was~~ ~~under~~ ~~the~~ ~~and~~ ~~the~~ ~~names~~ ~~and~~ ~~did~~ ~~you~~ ~~ever~~ ~~tell~~ ~~anyone~~ ~~that~~ ~~you~~ ~~were~~ ~~married~~ ~~and~~ ~~that~~ ~~two~~ ~~the~~ ~~days~~ ~~there~~ ~~was~~.

and still trying to be affable & cooperative we agreed to meet again on Friday, when Miller & ~~the~~ ~~names~~ would again come down from N.Y. but not necessarily manipulation over our ultra-filtrate  
 apparatus. I can still see that things were being done.  
 But it did take a few more minutes than I had  
 estimated & when I was leaving the hospital  
 grounds there was a flood waiting to see me  
 & see what the delay had been. Significant, but  
 not as significant as what followed. Saturday  
 I worked till 7 & then attended <sup>at 11 AM</sup> a meeting of the  
 Ohio Physiological Society "across the wall" at the  
 medical school. I knew one of the people there but  
 the <sup>other</sup> ~~two~~ <sup>person</sup> who entered first as meeting started & went  
 left after 5 minutes could only be (I would)  
 FBI men. Then <sup>at 11 AM</sup> I remembered that person  
 I was started to see person but he had in the  
 door of the lab. "I just happened to be in the  
 neighborhood," he said, "I thought I'd stop in  
 & see what your place was like." So I showed  
 him around, trying to be as <sup>you did</sup> ~~friendly~~ as I could  
 with the cold reality creeping in that I was  
 under surveillance. Why? What did they have  
 and on Friday ~~without~~ <sup>without</sup> ~~even~~ further plans

But still I did not feel any fear of him

in between time went over to see Dr. Big when

But my dog had been sleeping in ~~the~~ <sup>the</sup> lab with the

put a ~~gain~~ <sup>gain</sup> to the <sup>5th floor of the</sup> Widener Bldg where for

probing questions, one more toward - I could  
not afford to let the word of Tom Black

despite doors with defeat I strongly began  
to feel sorry for them - they had given it

freely clearing out all <sup>the</sup> ~~evidence~~ <sup>evidence</sup> ~~which~~

I got home about 9 of the day called a V.I. post.  
 "Please, I heard 'you want her to come back  
 now. The boy <sup>will</sup> last till tomorrow" - a  
 of <sup>the</sup> <sup>boy's</sup> <sup>beliefs</sup> could take care of matters on  
 Monday. A guess I did not actually begin my  
 search for damaging bits of evidence till  
 5 AM on Monday - because I felt that some such  
 under activity in my head would only allow  
 pop & yes. On top of that I had a dully  
 fatalistic & apathetic approach toward the  
 ever-fading search; what would be would  
 happen & that was all. Possibly it was <sup>the</sup> sheer  
 exhaustion of that week which produced this  
 reaction in me. But when I started to doze,  
<sup>at</sup> <sup>the</sup> <sup>beginning</sup> <sup>of</sup> <sup>the</sup> <sup>gray</sup> <sup>days</sup> <sup>of</sup> <sup>the</sup> <sup>early</sup> <sup>morning</sup>, I was horrified.  
 Road block; <sup>there</sup> <sup>was</sup> <sup>a</sup> <sup>letter</sup> <sup>from</sup> <sup>Black</sup> <sup>dated</sup>  
 Feb 1948; a short <sup>letter</sup> <sup>from</sup> <sup>Chicago</sup> <sup>whispering</sup>  
 to Kansas City; a rough <sup>draft</sup> <sup>of</sup> <sup>a</sup> <sup>report</sup> <sup>on</sup> <sup>a</sup>  
 visit to Cambridge <sup>Mass</sup>; a <sup>copy</sup> <sup>of</sup> <sup>my</sup> <sup>to</sup> <sup>visit</sup>;  
 a card containing instructions from <sup>FBI</sup> <sup>relating</sup> <sup>to</sup>  
 acquisition & procedure for approaching Ben Smith; all  
 this was true & more - & I tore it all up & printed  
 it down the toilet. Yes, I had taken care of  
 everything. The top & yes left for me to <sup>be</sup> <sup>done</sup>  
 behind saying that I had no report to complete before  
 I <sup>left</sup> <sup>for</sup> <sup>the</sup> <sup>Hospital</sup>. <sup>Then</sup> <sup>came</sup> <sup>the</sup> <sup>door</sup>  
 bell & I, still <sup>in</sup> <sup>the</sup> <sup>to</sup> <sup>be</sup> <sup>done</sup> I always work  
 when around the house, welcomed Dick &  
 Croft.

So <sup>fast</sup> <sup>we</sup> <sup>started</sup> <sup>my</sup> <sup>room</sup> & <sup>the</sup> <sup>FBI</sup>  
 indicated that this was all they were interested in.  
 - they could hardly wait to get my stories, at first  
 almost null, very null, there was a lot of stuff,  
 but it was all school notes & lab notes & chemical  
 literature references, & my books were all notes of  
 mathematics & physics & chemistry & some odd  
 "forlet book" additions of my <sup>own</sup> <sup>stories</sup>. I <sup>was</sup>

 must have picked it up at a wild west

 of a Rochester Association. How where I had  
 purchased the book during a visit to the Club, I then  
 went found a <sup>former member</sup> train schedule: Washington -  
 Philadelphia - New York - route ~~mentioned as~~  
 - "How about this" ~~of date 1945~~

"Somebody knows I probably go out when  
 I go to New York to see "Brother" & again  
 I just need this on my trip to all the way then  
 in late 1945.

And, I thought about this, but not too  
 bad, not conclusive. I was in  
 Then came the stunning blow. Found  
 my bulky copy of Lewis's Walter Lewis &  
 in "Admiral Principles of Chain Expansion"  
 with <sup>many families</sup> full pulled a street map of Santa Fe,  
 instead, this I had overlooked. I knew that  
 it existed but in my busy hunting that morning  
 could not find it & so assumed that at some  
 previous time it had been destroyed.

"How about it Harry," said Dick. "Time  
 in a minute I will go I think down on the  
 that <sup>is part of my desk</sup> from which Dick had just vacated. I saw the  
 a board & then after a few moments read  
 the future world. Yes, I saw the name to which  
 Klaus Fuchs gave the ~~name~~ on atomic energy;  
 now to go back a little. Why for this  
 whole while did I fight as I did, <sup>for this</sup>  
 that that that inevitably in a month or two  
 or a year and that one will see the truth  
 I would be sure to do this, why did I not know

myself the ordeal. The reviews were two & very  
 favorable ones; I was fighting for time, ~~first~~  
 trying to salvage a few more precious  
 hours with my pen & yes, hours in which they  
 would still be in ignorance of what I had done.  
 And on Thursday night & Saturday & Sunday I poured  
 them to the full as few as their numbers were  
 I was still well on Saturday & was going out

but of police work. On the night that I made  
 the positive first identification at Haverbury  
 & Henry Unsworth in New York when the  
 FBI man asked him as to the guest name, one  
 of those men later told me "Aren't you Paul  
 had gained 15 lbs & was 5 years older & far  
 more mature in appearance, as well as being  
 the same four days of description furnished  
 by you based to my mind & I believe  
 beyond the shadow of doubt that this was  
 the man, and before the first meeting with  
 me Hamilton & me pulled at Haverbury  
 I disposed the rest, Paul & I all  
 my time & minor movements, & I see  
 Rose & Fred Heller & <sup>at last,</sup> <sup>original</sup> <sup>with the truth</sup>  
 But a few rocky days of the man he  
 were left standing - a few shreds of evidence  
 which were considered me, ~~at last~~ & the  
 principal part had to do with the fact that  
 in time to the statement that I had not  
 accepted a penny of expense I had actually  
 received some small help on 6/17/49  
 unrequited for my trip, that I had  
 covered the fact that in my earlier efforts  
 to cross protect Clark I had placed a bill  
 a part in the wrong knowledge and that I saw  
 through I had described him with the greatest  
 accuracy so completely that a later identifica-  
 tion has been verified, & since in addition  
 by other than myself, & the final fact covered  
 the ~~conclusion~~ <sup>fact</sup> of the fact that there had  
 been subsequent meeting with the same man  
 in New York - the fall of 1949; plus the  
 fact that I had met two other men in my room in  
 fact was the other; the first when I announced  
 my arrival the second a very short time later made  
 this fact that I was only here to leave this  
 country & the second man in particular from

to report  
 all of the  
 disclosures  
 made under  
 before a  
 committee  
 at New  
 York

on the Sunday following Fuchs' arrest I had gone to  
ascertain what had occurred. It was at the  
moment that I was motivated by a man who  
showed a sign when I told him I recognized  
from his newspaper photographs as being  
Rosenberg,

What I did & his was not so incredibly  
stupid. I had never since that & I had  
never for one moment of hesitation, disclosure  
which had occurred that my punishment  
would not be too great. I had done  
it. ~~I had done it~~ and it was such  
a terrible shame for me that I deplored things, you  
know, the whole thing of the fact that I had tried to  
believe with dignity through me this, as a  
man should. But to say that I was ashamed is  
not enough; there were reasons, listed as:

1 - Everything that I had done for the past  
fifteen years (not of my adult life) <sup>was</sup>  
based on falsehood & deception. <sup>and I had used myself</sup> Every time  
that I went on a mission to New York  
I must have lied to 5 or 6 people - so possibly  
to expect ~~as much~~ <sup>an</sup> ~~as much~~ <sup>as</sup> ~~as much~~ <sup>as</sup>  
to complete ~~the~~ <sup>the</sup> ~~the~~ <sup>the</sup> ~~the~~ <sup>the</sup>  
was too much.

2 - As a result I had had to rigidly con-  
dition & train myself to tell the truth -  
a total refusal of all that has gone before  
my arrest.

3 - Above all, I had a terrible sense of  
shame & disgust ~~at my~~ <sup>at my</sup> ~~at my~~ <sup>at my</sup>  
(which I can never ever lose) <sup>conscience</sup> ~~at my~~ <sup>at my</sup> ~~at my~~ <sup>at my</sup>  
& this situation made me cling desperately  
to a few bits of evidence ~~so~~ <sup>so</sup> ~~so~~ <sup>so</sup> ~~so~~ <sup>so</sup>  
not appear so totally the deplorable  
character which I really was.

4. I was not a confident man, far from

it - it must miss that sufficient time had to be allowed for me to fight this battle out on my cell at Holmdelburg Prison, the battle to tell daily last part of life. and much to emphasize here that all of these admissions were not (when I was shown my card at the real battle time) & then disclosed that there was more going to me as potential evidence & no longer to me through my boss & his friends)

5. All of the major facts & incidents were disclosed within two or three weeks of my arrival, & the overall picture of matters as to the whole I received part of my responses from the very beginning.

1945 or only from 1944.  
I have for some time - advised myself by what I had heard & seen. I can't have shared with people aspects of it so that the memory of what I have done will fade in the past. But this must be possible - for my hundreds. With no memory left - but that's how it is. What is past.

6. And remember too that all this time I was under a severe mental tension, a constant worry about the possible effect of all this on my friends & my family - a first time I will admit to being <sup>very</sup> concerned about such a matter.

7. It is not possible that I, always so scrupulously accurate & correct in my scientific work, could be able to do so deliberately <sup>of course</sup> for the past 15 years.

8. Finally, it must be borne in mind that after the period of the first two or three weeks of interogation, during which all of the principal facts were disclosed, there was

the self & wisdom of this world ever again  
and hope to be enabled to live around healthy  
kids. This is not just idle talk. I have  
always said that Reason is a great guide in  
which to order one's thoughts & to think  
clearly & logically & from now on my  
best mind & efforts shall be directed toward  
this goal; and when I am released I shall  
work as I have never done before. I would  
and it is not public recognition that I  
desire, just the opportunity to get out of  
my ~~dead~~<sup>demerol</sup> hands & ability to the service of  
of ~~the~~<sup>the</sup> world & at last, I would not want  
me this time.

I fully realize that my big debt in  
the past I have forgotten for the time being  
of all of these acts normally occur given  
to freedom, I have this all too well, and  
even now then this I am aware of the fact  
that before anything else can transpire  
I must be punished & punished well for  
the terrible frightfulness things that I have done.  
I am ready to accept this penalty. There  
shall be no quibbling, trembling or flinching  
plans for mercy. Whatever, was paid now I  
am <sup>prepared</sup> ~~ready~~ to pay the bill.

This has been a personal document &  
a <sup>very</sup> ~~very~~ completely frank one. In the  
course of the narration some statements  
may have been made which may appear  
of my made, I want to assure any one that  
there was not my intent.

<sup>as much as</sup> <sup>as possible</sup> I have <sup>done</sup> <sup>my</sup> <sup>best</sup> to <sup>make</sup> <sup>clear</sup> <sup>my</sup> <sup>thoughts</sup>

serves to establish indisputably the enormity of my crime — it has, of course, been told in the greatest possible detail to the F.B.I.

Whether it should be recounted again, in a more cohesive form than <sup>was</sup> originally possible permitted, is a moot question & one that I leave to the authority to decide; should it be denied, however, both of these histories will be put down on paper.

This report concerns the events having to do with my final contact with an S.I. agent from December 25, 1946 till late July of 1949. I had received no word from, and had been completely out of touch with, any Russian espionage man. There has previously been described in detail my meetings with the two Russians, Fedosimov and Yakovlev at several places on that same night in December. In late July of 1949 I received a typewritten letter, signed "John", which in brief though it was, was worded in such a manner as to definitely indicate that a rendezvous was scheduled. The letter itself was postmarked Brooklyn and had been written on the envelope of the Hotel, Brooklyn, N.Y., as the return address - but no name was given beyond the handwriting "John". <sup>he</sup> According <sup>and with the</sup> to the arrangements Yakovlev & I had made the year previous, I came to New York the day after the receipt of the letter; then I proceeded to the Broadway stop of the Astoria Elevated line after first having spent several hours in wandering around - I recall that there was one stop at the Chemists' Club library on 21<sup>st</sup> Street (or is it 10<sup>th</sup>) between Madison & Park Avenues. I signed the register there. Possibly this can be checked; it seems that the day was a Wednesday, though it may have been a Thursday. In Astoria I waited at 8 P.M., at 9 P.M. & at 10 P.M. for periods of 5 to 10 minutes each at the designated corner, just across Broadway from a combination Sea-Food Restaurant - Bar, the spot on which I was standing has a small candy store with a signstand outside. Possibly the proprietor or his son can identify me in any event no one showed up and I returned to

Philadelphia.

The next occurrence was on a Saturday night about 7<sup>th</sup> day, on an evening late in September of the same year. I was <sup>in Philadelphia</sup> ~~home~~ asleep on the couch in our living room; my brother was out on a date - his first in many months - and Pop was upstairs asleep. The double ring of my awakening I was still so drowsy that for a moment I thought it was my stool. When I went to the door there was a man standing on the steps outside. He said in barely distinguishable words "Is Mr. Gold here?" at the first impression it appeared that he was one of the numerous fake charitable solicitors who infect our neighborhood; or, worse, an agent for household items or repairs & I hurriedly started to close the door. Then the stranger hastily said "Mr. Harry Gold?" I answered "Yes, you remember?" The words were said with a peculiar and all too familiar Jewish intonation that I readily recognized. I asked him in a rather hostile tone our living room he straightaway produced a slip of paper and two inches by three which was torn along one edge in an irregular fashion <sup>as indicated by the</sup> on this paper was written "and street"; at one time I had the matching piece which contained the words "Directions to P-"; the whole inscription had been "Directions to Paul Street." The two pieces had been <sup>originally</sup> ~~separated~~ - the latter had been an invoice of the <sup>separated</sup> Arthur H. Thomas Co. of Philadelphia, a laboratory supply house. The rest of this recollection derived was a statement by me (after a preliminary one by the Soviet agent asking "Can you tell me how to get to this place?") saying "Yes, I am going that way myself. Come along."

on this evening in Philadelphia I stated

That I no longer had the corresponding identification but that I knew with certainty who my visitor was. We shook hands & he first stated was, 'You had material from the doctor?' & he referred to information on atomic energy from Dr. Klaus Fuchs. The doctor said the cover up words for Fuchs I said --, & my guest appeared very disappointed. <sup>Can use</sup> The then moved into a baroque where I recall was that I should have heard the report in July. I said that I had ~~not~~ <sup>he finally reluctantly</sup> agreed that report <sup>concerned</sup> regarding the one or days following the end of the letter; also it seemed that I was supposed to have been inside the Blue Food Restaurant - bar & was across the street. These events made up the remainder of this meeting.

The first had to do with questions about the FBI and Perry investigation of 1947 at which both <sup>Can use</sup> one brother & I had testified. The <sup>Can use</sup> ~~man~~ never identified himself by any name - seemed primarily concerned about whether I had in any way been exposed. I agreed that I had not. The following questions about my job as medical reviewer @ the 14th Station of the Philadelphia 10 days. He appeared not to know about the idea that I was working in a field so completely unproductive of any data regarding military or industrial matters & even suggested that I should be considered a spy.

The second shall deal with the arrangements for a stay some 10 days or two weeks here in New York.

The third section of our conversation had to do with the fact that <sup>NY</sup> brother both in early August of 1946 had one related to me that he had seen an article in the Sunday Herald Tribune stating that Dr. Klaus Fuchs was being detained in Britain on suspicion of espionage & I had over checked the paper to see whether this was so, but I related

at to the Russian as if I had actually read the etc  
 at the appointed time and two weeks  
 later, I went to New York. The place was a movie  
 theater about three blocks to the right of the 70th  
 an stop of the Jamaica subway line. Just on the right  
 of the street going in the direction of Jamaica. <sup>any</sup>  
 elevated rail is very close by. It was a rainy night <sup>at 9A</sup>  
 I waited about two minutes & then I saw my contact  
 standing in a doorway. <sup>my</sup> I had not previously  
 observed him. <sup>my</sup> He asked me to go back in the direction  
 I had come, to turn left at the first street, go  
 down two blocks, turn left again & then over  
 two. & this I did & he was there. It was a  
 quiet tree shaded residential street with no other  
 visible. It is in the Forest Hills area. I should  
 note that I had been instructed to arrive this  
 earlier & to check carefully for signs of surveillance  
 that I had not done as it was not possible  
 to get away from the hospital in time.

The matters made up our conversation in the  
 course of a 45-minute walk in & out of the dark  
 streets of the neighborhood, we walked miles, rain  
 & all, though later it did delay. & the one place  
 that we did stop was the Forest Hills Sta of  
 the L.I. Railroad but there we would not when  
 the station attendant began to take notice of us.  
 as I said our talk could be broken down into  
 three categories:

one; a searching interrogation concerning the  
 events leading up to & the testimony given by both  
 me & J to the grand jury in June & July of 1949  
 (D's was in late June or early July & mine was  
 July 31). This questioning was a most completely  
 detailed, exhaustive & exhaustive & left me  
 extremely weary & dry, it was obvious that my  
 contact was a man skilled, experienced  
 & trained in such matters - a professional.  
 at the end of it I was asked, "Do you think there

(over)

will be any follow-up, and further inquiries?  
 a fact what in previous do you believe the Federal  
 agents had of you? I wanted to be sure that  
 I thought the matter to be over & done with; &  
 that it seemed to me that I had succeeded in  
 creating the picture of a small, timid, frightened  
 man who by some set of circumstances had got  
 involved just in case free of a certain  
 experimental work but who had never committed an  
 overt act in all this some nine year back, my com-  
 panion said he hoped so, but he would <sup>be</sup> a  
 disturbingly knowing ~~man~~. <sup>anyone</sup> He then stated that  
 in my case I should just sit tight until he showed  
 this article over next entry. He also indicated  
 that it would be a good notion for me to con-  
 sider <sup>to day</sup> as a preliminary member should it become  
 necessary for me to leave the country. This would  
 not be a point that I had looked at. I had just agreed to  
 all these things that he didn't think the situation  
 would arise but it was always a matter to be kept in  
 the back of one's mind for any emergency, either  
 all about entries of the events of this entry which was  
 not been <sup>related</sup> described.

Full concerning Klaus Fuchs, I was both  
 startled & relieved on being told that an inquiry  
 had been made regarding Fuchs & he was well & still  
 living <sup>in A.E.</sup> in the Soviet Union; it may even be that  
 I was given a message of greeting from the British  
 direction. I am not sure.

Then followed the specific details of our next  
 reading out at the next two.  
 It was not till some days later that I recalled  
 the circumstances of my story of the <sup>meeting</sup> ~~meeting~~ involving  
 Fuchs' arrest. And I was worried for virtually and  
 an event might attract suspicion on me - at least from  
 the viewpoint of the Soviet agent. Apparently it had not  
 occurred to him as yet.

Our third of last entry was at the ~~elaborately~~

terminating at the Union Sq. Point I was to go to  
 the 174th station & to walk up to the higher stop  
 @ 177th St; having come was to be along the north side  
 of Madison Rd as I progressed towards 177th St I  
 was to cross Madison Rd & run in front of a cafeteria  
 for observation - by, I assumed, the bushes. The  
 next step was to ascend the elevated steps & take the train  
 to one more station - the last stop, the previous two  
 of course, were again, I was cautioned to come  
 early & to carefully ascertain whether I was being  
 followed. The actual contact was to be outside of a  
 saloon called McCarthy's which was diagonally  
 across the street from the 177th station; I was to avoid  
 near the ladies entrance on the side of McCarthy's. The  
 night was a Sunday about three weeks after the  
 previous stay in Forest Hills & somewhere around  
 9 PM.

As had been arranged I came to NY about <sup>with</sup> only  
 with a half hour delay till my train for the moment. I  
 proceeded to 174th St & then to the Madison Rd station - was  
 without a doubt that when I crossed the street to the  
 cafeteria <sup>and</sup> only across the window <sup>indiscreetly</sup>  
<sup>very close</sup> I would observe <sup>the</sup> sign of ~~the~~  
~~contact~~. I would have <sup>for</sup> several times & <sup>the</sup> <sup>and</sup> <sup>was</sup>  
 eventually succeeded on the steps - I did not a train  
 at all but it was to avoid <sup>the</sup> <sup>station</sup>  
 obviously not the end of the deal, I was ready to wait  
 for another when I grazed through the door to the station  
 I made an enquiry of a stranger who directed me to the  
 the Madison Rd & to the station of taking a train to  
 Union Sq. This I did & arrived at the destination  
 where I waited <sup>carefully</sup> for about ten minutes or more  
 on the point of departing when out of the dark alley  
 alongside of the front entrance of McCarthy's, came the  
 contact agent, <sup>he</sup> <sup>said</sup> <sup>that</sup> <sup>it</sup> <sup>had</sup> <sup>been</sup> <sup>delayed</sup> <sup>and</sup>  
 offered as explanation; I somehow gathered that he had  
 consulted with some other person who had conducted  
 the surveillance from at Madison Rd.

10-28-80

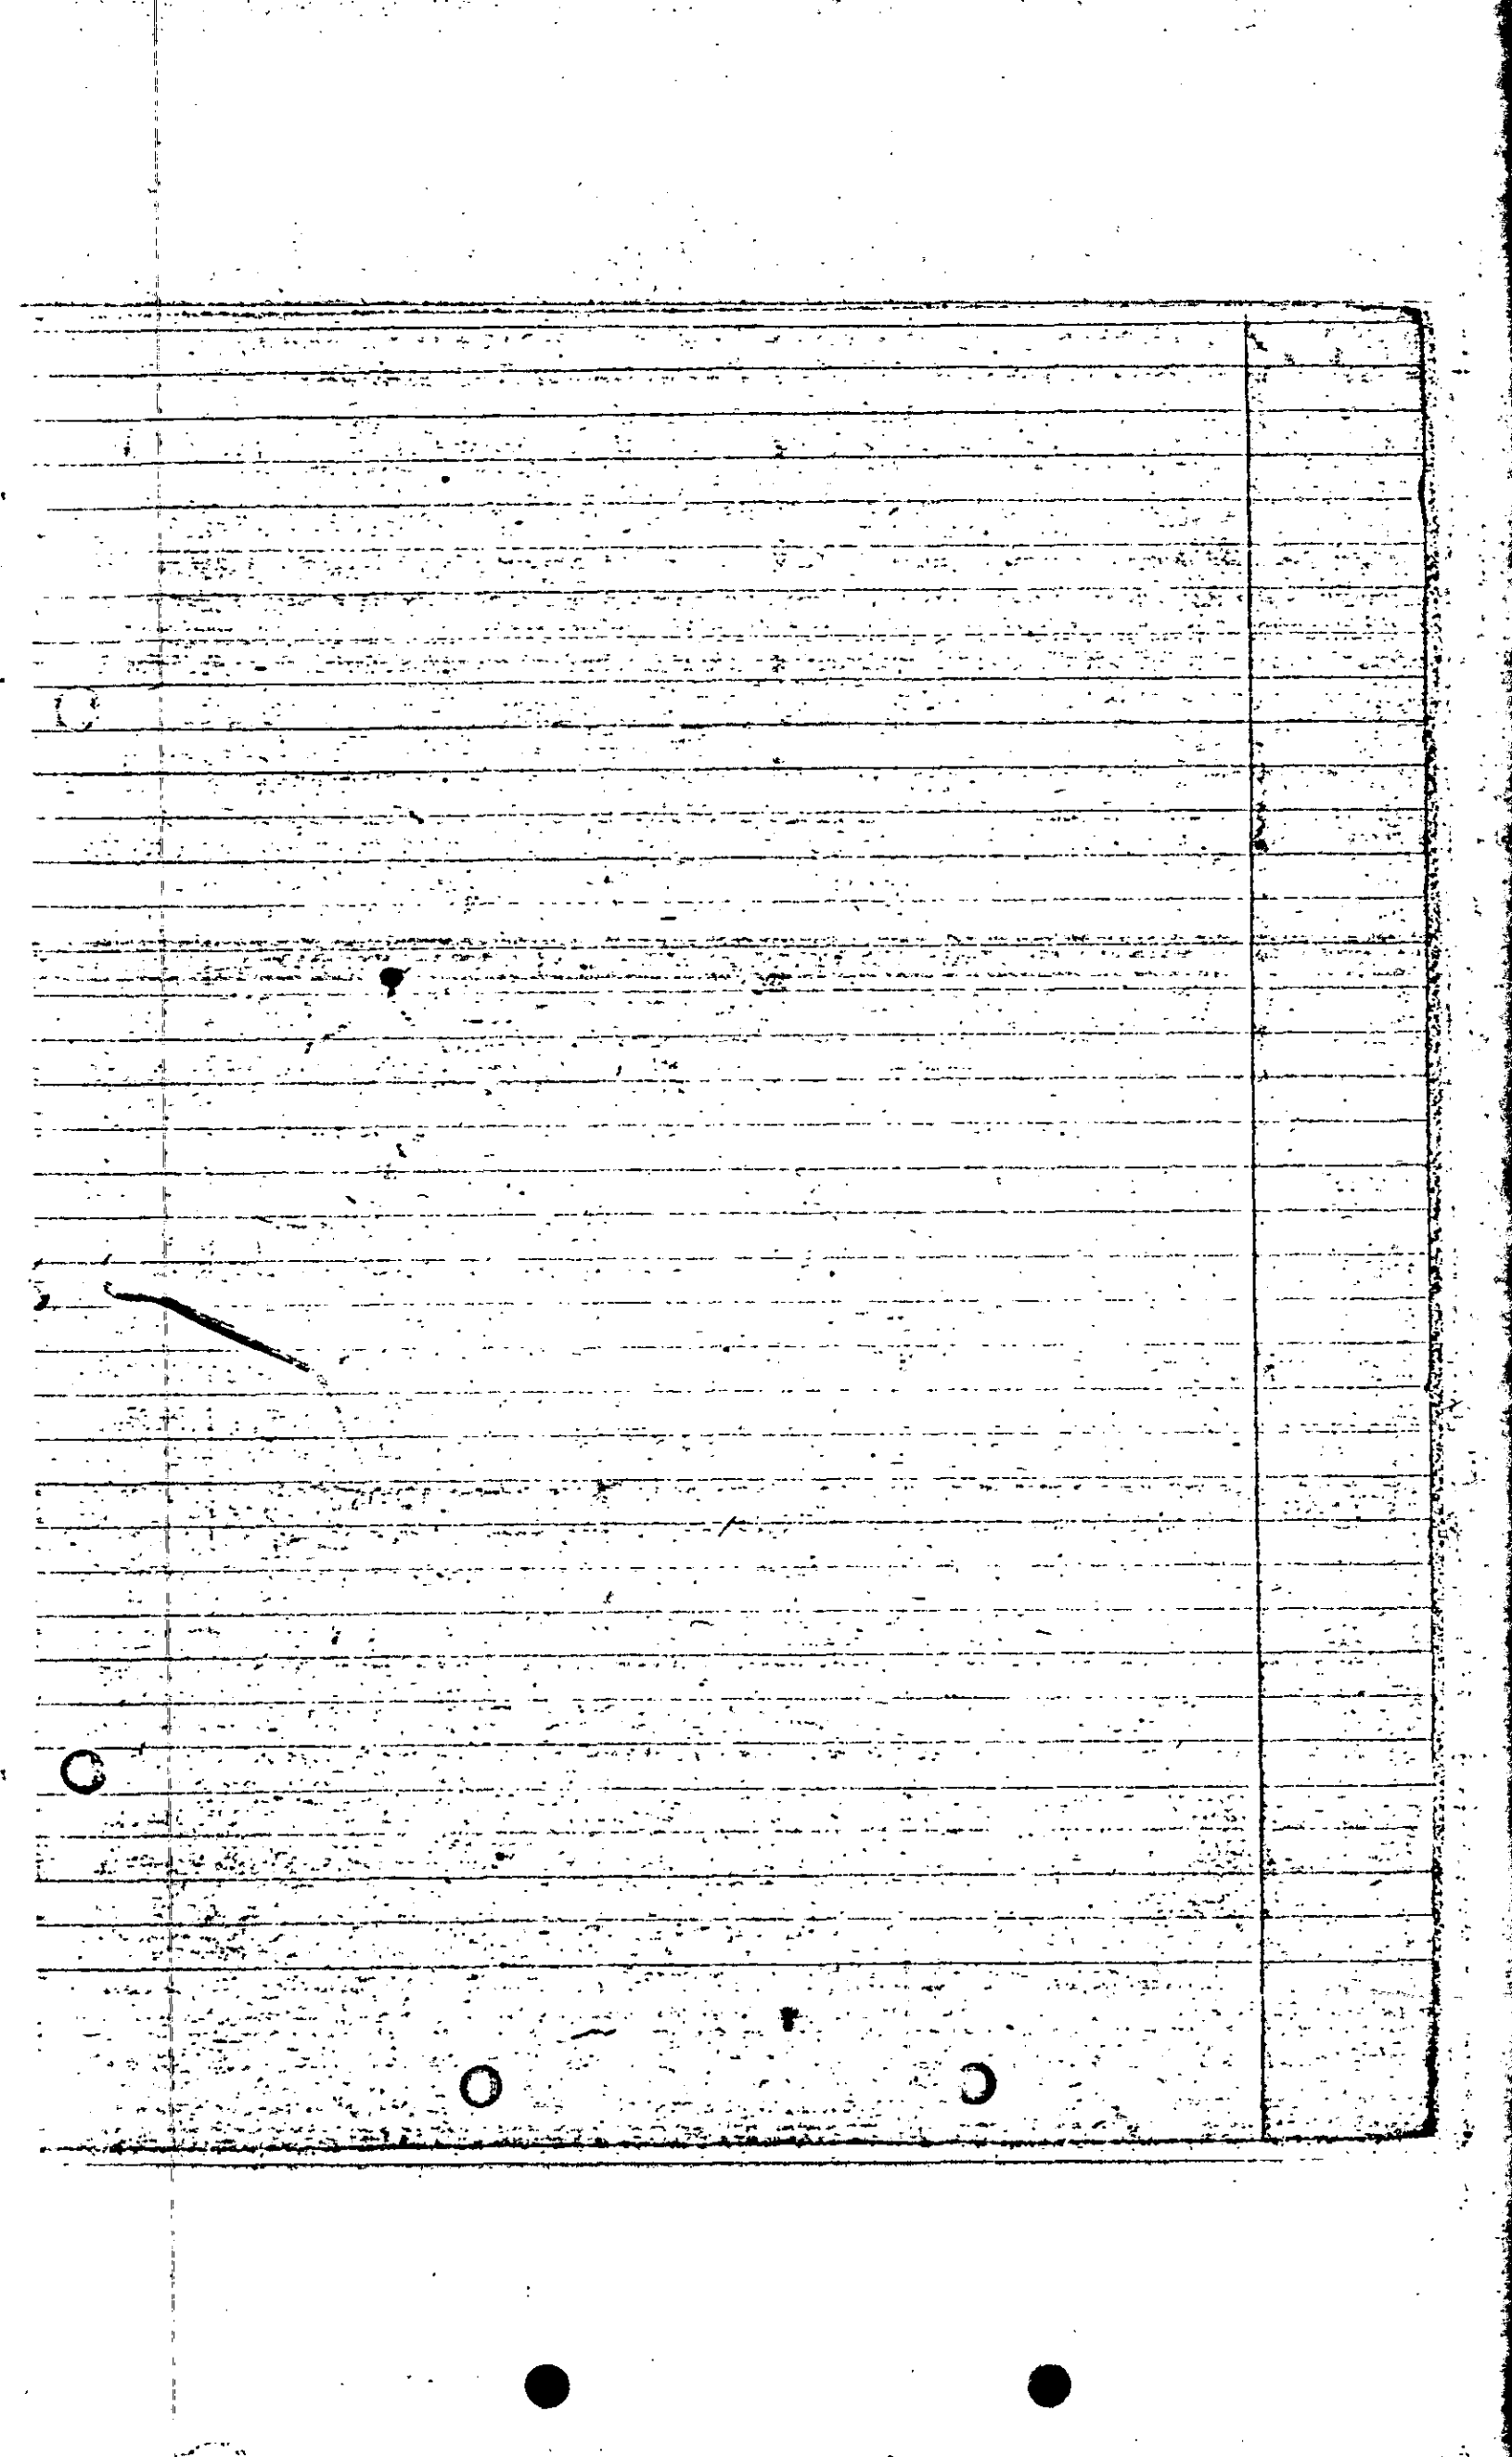

We walked around for some two hours in the area through the hilly streets of the Bronx but in the evening at dusk heading back to Foster Road; I remember going up the hill of the hilly streets, dead end streets, of that area these streets were taken up

Finally, I was told that for several years after it was not contemplated that I should be involved in activities this despite the fact that I had made no inquiries along that line. ~~any line~~ was suspicious first, he said. For all that remained in the room; put it completely out of your mind and was going to continue working normally & <sup>over to</sup> ~~maintain~~ a record as possible.

Secondly, I was to think about the idea of plotting a route whereby an exit from this country could be effected. This alarmed me, but the man would not elaborate beyond the fact that this was suggestive & was in line with the subject first mentioned at our last meeting. He indicated that possibly a route leading to the Mexican border was a good idea though first he would ask about <sup>overcoming</sup> leaving from a seaport port — the west coast? and this unit definitely could make money would be doubled, money on the order of thousands... also, that I was in view I would probably proceed to South America & then to one of the Latin American countries under Russian domination — but not the Soviet Union itself.

I had a long discussion relating to future plans the evening, the idea was this: there were to be two types of meetings:

- a - The first were regularly scheduled to take place at two month intervals beginning with the first Sunday in December. After the talk it was I who selected the place. I was to be at the 90th St - Columbus station of the Flushing subway line and on the street side adjacent to the part of the lot that went out to Flushing <sup>the lot was used for</sup> at that time all two weeks here, and a triangular bit of pavement at the foot of the lot

of which is a advertisement; across the street are stores,  
including a new clothing store of good active repair shops. I was to  
be on the side with the advertisement, my contact, & the  
Russian indicated that very likely it would not be the  
would be on the side with the stores. As a technical  
re connection device I was to be standing in distinction  
Circuit. Other pipe which I possess & the other party wanted  
all standing a case. Unless it was necessary to conduct  
a discussion, they would wait until about one hour  
for a minute or so & then would take leave. If it was desired  
to talk, they would wish to make the standing  
position would be on the left side of the  
street, and if I wanted to have conversation with  
the Soviet agent I would stand on the side with the  
store. The method of assembling our side to this  
would be the following. The Russian would  
say "can you direct me to the Norose Harding House"  
and I would answer "Yes, I am going that way  
myself. come along?" It would be added that the 14-18  
Hospital is made of mill distill gas plants in the  
neighborhood in Chatham St. the page 9 for see

It would be for an emergency meeting would also  
be indicated. The method of getting in to the door  
over was as follows. For the levels it would be the  
members of a technical group called "The Chemistry  
of the Carbohydrates (Sugars)" or possibly "Recent advances  
a course in Carbohydrate chemistry" by two men W.W.  
Adams & R. Tolson; at the time I got the name  
of the volume to the Surgery I could not remember  
Adams's name - I had a mental block - but was in  
is very numerical & their work is very excellent and where  
by assembled tables which do not have anything with  
relation. There could be no mistake. I also went to see  
as to the larger that it could be for found at  
Adams's table, the technical books on the table  
at 19th Street. The understanding was that the books  
should be first class to the Heart Station but at the  
Phil General Hospital - and addressed to Harry Gold.

11-29-48

I think that to avoid arousing suspicion of ~~the~~  
~~the~~ return address was to be used  
and employing a fake name. The volume was to be  
sent in sufficient time so that I would receive it before a  
Tuesday, & Wednesday, and sufficient time to plan for the  
meeting, also on a Sunday. But the place & the time were  
changed. ~~The~~ as to the meeting, it was to be

Furthermore, it was understood upon me that I  
should come to N.Y. <sup>late</sup> the night before (that is, Saturday  
night) & to spend the night wandering around, never  
stopping too long in one spot. Then in the morning  
I should go out the 9th St. station about midnight or so in  
a dress to make sure that this spot was not under surveil-  
lance; I was not to go past, not to stop, even inci-  
dentally to observe. If there were any suspicious circum-  
stances there, then no delay was to ensue at 3:0 A.M. I was  
to wait no longer than 5 minutes (possibly it was 10) on this  
line & once I saw my contact, I was to spend one or two  
minutes.

New Rochelle, N.Y. I was to go to that small city, which  
I do not know. Then on <sup>the way</sup> the terminus, I  
would pass through, or possibly along, a Hudson Park  
open proceeding in the direction of the boardwalk. Once  
at the boardwalk I was to turn right for about fifty  
yards where there was a cold letter with  
branches - this on the left nearest the sea and there would be  
the <sup>on</sup> level ahead; again it was anticipated as likely  
very clear. The recognition device was the name, <sup>which</sup> would  
with <sup>in</sup> my hand, & a cigar in his mouth, also the general  
phrases concerning the H.H. <sup>and</sup> any <sup>other</sup> words as  
for the record only intended <sup>to</sup> help. But the time was  
changed, being 1 P.M. instead of 1 P.M. I do not recall  
any <sup>of</sup> my <sup>going</sup> to N.Y. on Saturday night,  
but probably <sup>at</sup> <sup>some</sup> <sup>point</sup> <sup>in</sup> <sup>the</sup> <sup>day</sup> <sup>of</sup> <sup>the</sup> <sup>29th</sup> <sup>of</sup> <sup>November</sup>.

① The first thing I noticed when I stepped out of the plane in London in 1945 was the humidity. It was a relief from the dry air of New York. The streets were clean and the buildings were tall. I had heard that London was a great city, but I didn't know it would be so different. The people were friendly and the food was delicious. I was in luck. I had just found a place to stay and a job to do. It was a start. I was in London in 1945.

and surely on an active added attention, I am  
not speaking factually but a deadly earnest,  
but it was just the manner in which I was  
asked to accomplish this task, on the occasion  
of my meeting with John in N.Y. just before  
leaving for ~~the~~ the first trip to go to Fd.,  
I was asked to pick up a <sup>part E</sup> wife from a man  
~~whom~~ whom I had never identified as David  
Thompson. I did do a good Thompson & O'D  
to enable his wife to continue to stay in  
Albuquerque was his. True, I was surprised  
when I found Thompson to be a N.Y. but  
I did carry out the mission.

Further she was a person capable of dealing with  
people of ~~or~~ diversified backgrounds: From  
a truly brilliant mind such as Klaus Fuchs, to  
a capable technician such as ~~John~~, to an  
unknown person such as David Thompson, to  
an able but limited person such as ~~the~~  
& finally with a reputation as ~~the~~ ~~the~~ ~~the~~  
which was the absolute ~~the~~ ~~the~~ ~~the~~  
mid-level.

The first thing I did when I got up was to check the weather. It was a beautiful day, with a clear blue sky and a gentle breeze. I felt like I was in a new world, one that was full of life and possibility. I had heard so much about this place, and now I was finally here. I couldn't wait to see what it was like. I took a deep breath and stepped out onto the porch. The air was fresh and clean, and I could see the ocean in the distance. It was a sight that I would never forget. I had come to a new home, and I was excited to start my new life here. I had heard that the people were friendly and the food was delicious. I was going to find out if that was true. I had a long drive home, and I was tired, but I was also happy. I had found a place that I could call home. I had found a place that was just what I needed. I had found a place that was perfect for me. I had found a place that was my home.

The first thing I did when I got up was to check the weather. It was a beautiful day, with a clear blue sky and a gentle breeze. I felt like I was in a new world, one that was full of life and possibility. I had heard so much about this place, and now I was finally here. I couldn't wait to see what it was like. I took a deep breath and stepped out onto the porch. The air was fresh and clean, and I could see the ocean in the distance. It was a sight that I would never forget. I had come to a new home, and I was excited to start my new life here. I had heard that the people were friendly and the food was delicious. I was going to find out if that was true. I had a long drive home, and I was tired, but I was also happy. I had found a place that I could call home. I had found a place that was just what I needed. I had found a place that was perfect for me. I had found a place that was my home.

of that and with that we had a fight on our  
to want the letter for that. But on a fight  
full, or having of discussion. But against that  
in a really being made. But in the way we  
and a the that! But we were in a fight on  
the the letter, long day, like that, down

I may be ~~some~~ ~~in~~ ~~the~~ ~~line~~ but I was a bitter  
& frustrated man that a man who longed for recognition  
in the field of chemistry. But this is not so. I had always  
been most happy when I was left in laboratory  
to work. Those who know me can bear to this. My ac-  
complishments were not startling but the work  
was good & creditable and I felt that always I  
was becoming more skilled & able. As for the  
~~extensive~~ difficulties in obtaining my degree, I  
was well aware of the struggle necessary &  
the fact that it had finally been attended with  
success. And I had saved every penny of the  
tuition, too. The only time that I was ever  
discouraged was in 1944 when I was told that there  
would be difficulty in entering grad. school because  
of the fact that my credits were so scattered. Further  
the fact of my industrial accomplishments seemed to  
to carry no weight. To those who doubt in ~~the~~  
my ~~and~~ of all Graduate school.

... I think I should mention that I was very nervous about the trip, but I was also excited. I had heard so much about the place and I wanted to see it for myself. I was a bit of a workaholic and I was used to being busy all the time, but I was going to take a break and enjoy the moment. ... in my family's history I have always been very  
 the situation is that I have already studied  
 down somewhat by the fact that they have been  
 back finally on a mission, I could easily  
 think to see the first of it - after that  
 it is true the mission is still in the state  
 that place the mission in the state of Kansas  
 fact, I am much of a poor clerk in Chicago  
 nature thing. I have the all  
 of I have to do to acquire the following  
 ... my own!

① To start the mission project in the  
 meeting very much the same way I am making  
 for me 1958 than for the year. I have decided  
 my mission for every step of detail & project  
 of construction. I have ~~an~~ a plan to do  
 much. I have 4.4 acres of land already in the  
 in with in early, March, April & May, June,  
 our own will be done. For each of these in the  
 will start on this ~~mission~~ mission and they have  
 knowledge. We have been in the city  
 actually done. For each of these we have  
 on a project of nature, for all my projects, I have  
 have a few more things, I have a lot of things  
 way (I have a list) & will buy, but not what  
 any one out yet. especially for the mission  
 Mark, I have a ~~mission~~ mission in the city  
 of the mission and the mission is all  
 of the mission and the mission is all

② I think the mission of the mission is getting  
 I would like to see the mission to my brother  
 I have to do that the state is doing  
 it in the mission. I have already  
 by the mission. I have talking to  
 by the mission. The mission is in the  
 for the mission & I have out of there  
 the mission in the state. For the mission

ically, order, incidentally I shall try to  
make the details of these matters in this  
of the succeeding sections (that of plans &  
disappointments) flow as naturally and  
as unforced a manner as possible,  
the earlier ones are apocryphal but I  
must say eventually to credit them

First, when as a ~~test~~ baby I was  
brought out of a ~~mother~~ <sup>infirmary</sup> still full of  
chocolate & when Pop came home from  
work would refuse to let me in  
the house unless he produced a bar of the  
sweet stuff. One of my ~~best~~ <sup>most treasured</sup> pictures,  
(the family still box) shows a group of  
three families in Rome; every one of the  
adults is frowning & my ~~Pop~~ <sup>Pop</sup> Kaiser with  
moustache is fairly ~~theatrical~~ <sup>theatrical</sup>; two other  
children are near him; but Harry is  
sitting on the floor in a ~~corner~~ <sup>corner</sup> seat with  
his a blissful smile & his mouth ~~filled~~  
with <sup>bits</sup> chocolate - which I had ~~swallowed~~  
from the other children, I had always  
been able to bully Pop - perhaps bully is  
not the correct word - for to him I had  
always been the favorite ~~one~~ <sup>word</sup> of  
this lot.

and I was always  
unquestionably ~~right~~  
to him

As a child, according to photographs -  
flaminates in Switzerland were little  
cubs, ~~of about~~ <sup>of about</sup> ~~two~~ <sup>two</sup> ~~headed~~ <sup>headed</sup> ~~and~~  
of about ~~one~~ <sup>one</sup> ~~or~~ <sup>or</sup> ~~two~~ <sup>two</sup> ~~or~~ <sup>or</sup> ~~three~~ <sup>three</sup> ~~or~~ <sup>or</sup> ~~four~~ <sup>four</sup> ~~or~~ <sup>or</sup> ~~more~~ <sup>more</sup> and  
that I would play happily till I got  
bored, then I pulled their ears &  
they would go home crying. Sometimes  
I wish I had carried out this attitude  
in later life, when I be ~~would~~ <sup>would</sup> be ~~able~~ <sup>able</sup> to ~~be~~ <sup>be</sup> ~~heard~~ <sup>heard</sup>  
opposite in ~~blowing~~ <sup>blowing</sup> that is, ~~as~~ <sup>as</sup> ~~apocryphally~~ <sup>apocryphally</sup>

Then, from earliest childhood I was  
with the very best of school, I had had the  
habit of ~~contending~~ of contentedly going  
to ~~myself~~ myself ~~to~~ to ~~myself~~ myself ~~to~~ to  
attend ~~to~~ to ~~myself~~ myself ~~to~~ to  
would take place when as a child  
I would be at my ~~by~~ by ~~myself~~ myself ~~on~~ on  
a date as an adult when I would  
in a laboratory, ~~some~~ some ~~of~~ of ~~my~~ my ~~to~~ to  
could not stand ~~at~~ at ~~it~~ it

It must have been  
intensely interesting to a doctor  
because

for my part I was almost completely  
unaware of it. This "morning low"  
was one of the other routine numbers of the  
Penguin Cycle. It seemed ~~particularly~~  
closely associated with periods during  
which the old work was progressing  
rather ~~poorly~~ poorly ~~than~~ than ~~it~~ it.

Four ~~of~~ of ~~the~~ the ~~best~~ best ~~of~~ of ~~the~~ the ~~morning~~ morning  
of 1918 ~~was~~ was ~~one~~ one ~~of~~ of ~~the~~ the ~~best~~ best  
rides I shall ~~ever~~ ever ~~have~~ have ~~known~~ known  
since of ~~glorious~~ glorious ~~ones~~ ones ~~was~~ was ~~pulling~~ pulling  
sleds & we were both very happy. For  
would say "mark the path of  
the sleds" (the great man  
in ~~front~~ front ~~of~~ of ~~the~~ the ~~sled~~ sled ~~and~~ and ~~we~~ we ~~would~~ would  
I ~~remember~~ remember ~~with~~ with ~~glad~~ glad ~~recognition~~ recognition,  
no other early evening has ever ~~been~~ been  
that ~~has~~ has ~~been~~ been ~~able~~ able ~~to~~ to ~~reproduce~~ reproduce ~~the~~ the ~~same~~ same  
of that the ~~particular~~ particular ~~light~~ light ~~of~~ of ~~that~~ that ~~one~~ one  
I ~~will~~ will ~~never~~ never ~~see~~ see ~~or~~ or ~~think~~ think.

Five: ~~Early~~ Early ~~the~~ the ~~time~~ time ~~was~~ was ~~about~~ about ~~eight~~ eight,

~~month~~; the University of Pennsylvania  
 summer camp for undernourished children  
 throughout the period covered by this history,  
 & in particular from the age of nine to  
~~fourteen~~, I was ~~quite~~ small, weak &  
 sickly. I had not too much interest in food,  
 except for sweets, & the slightest cold in  
 the fall would stay with me all winter.  
 At that time ~~it was~~, & I think even now,  
 the University of Pennsylvania's Christian  
 association operated a camp at Green Lane,  
 some 50 miles <sup>northwest</sup> ~~west~~ of Philadelphia, where,  
 in co-operation with the public school system,  
 undernourished & undernourished boys were  
 sent for from 10 to 20 day periods. I went  
 there ~~twice~~, ~~once~~ ~~at~~ ~~two~~ ~~at~~  
 two successive summers, beginning ~~at~~  
 the age of twelve & as ~~the~~ the saying goes,  
 "Boy, did I have fun!" ~~and~~ much more  
 to the point I put on from five to seven  
 pounds <sup>during</sup> ~~at~~ each stay. The appetite that  
 I developed there has stayed with me  
 throughout these years; I ate every <sup>thing</sup> ~~thing~~  
 I was the only boy at our table who ~~got to~~  
<sup>acquired</sup> ~~to~~ <sup>for</sup> ~~to~~ ~~eat~~ ~~the~~  
 like ~~to~~ ~~eat~~ ~~the~~ ~~food~~ & as a result all of the  
 others would heap their portions on my  
 plate & I would devour every bit of it -  
 I still love the stuff. Then there were  
 those intriguing ~~obstacles~~ ~~conspiracies~~  
 surrounded by huge boulders on which  
 the boys would perch while the ~~country~~  
~~boys~~ ~~would~~ ~~talk~~ ~~about~~ ~~it~~ (all university ~~children~~)  
 talk about ~~it~~ ~~and~~ would preach the  
 doctrine of fair play. Yes, I had fun,  
 portion my boots & all, and when the  
 slow Reading local would re-enter the  
 cooking ~~concoction~~ ~~of~~ Philadelphia, I felt  
 very badly.

follow

started out by walking a total distance of six  
miles (up & back from school lot) to a  
one week high school athletic football game  
(Covington last year). I was especially fascinated  
almost to the point of a religious fervor, about  
the high school football team of 1906  
& 1907, both city champions. Both teams were  
led with great representation of small fast &  
clever pure boys & I glowed when they traveled  
one of predominantly Hispanic teams of West  
Allen & Northeast - <sup>the records show</sup> I should note however, that  
the majority of both teams were Wall  
Weldon & all-around both districts (center)  
but I only looked to this as the long road  
for rapport between the past & the <sup>Christian</sup> present.

seemingly  
always

To recall somewhat the arbitrary time  
boundary of this history, it was not till  
I started Penn in 1970 that I actually  
was a member of an athletic team, the  
Fairview local country & general & reportedly  
I sprained an ankle & was unable to compete  
in the intercollegiate series of that fall  
in New York's Van Cortland Park.

My early love for chemistry  
when I was about 14 during Hot Air & V  
walked a <sup>little</sup> mile to <sup>the arbitrary</sup> Thomas  
to get water & lunch (to <sup>with our savings</sup> see how a variety

took my first chemistry course two years  
later, the book was sealed.

 with the car. However he allowed a question  
 him, and I recall how the sitting  
 the fire post in ~~the~~ our backyard <sup>completely</sup> covered  
 with snow that he looked like a statue;  
 he was waiting for one of his lady-loves (who  
 for some reason was doubtful in love). &  
 when she took the whole in & died. This  
 happened out & filled him with ~~some~~ milk,  
 the cat moved pitifully at the door

~~Excerpt~~, starting at the age of 12  
 & continuing for some winter or four  
 years. I was one of a very close group of  
 boys & all called by my nicknames, Danny  
 Smith & Frank <sup>Keller</sup> <sup>Tracy</sup> & Danny

 & also was a friend of Tracy's all except we

 my character well close was an accident  
 was, <sup>for</sup> we went everywhere together,  
 played together & were constantly in one  
 another's hands. We shared our other  
 joys & sorrows <sup>very</sup> <sup>literally</sup> & adopted the <sup>Diagnosis</sup>

Nanny was the black sheep of the

Young was the oldest of eleven

I went with several of the kids (one of the  
 cockney boys in our street) & he was ~~the~~  
 the bridegroom of the wedding and had two black eyes,  
 it was funny, <sup>in all seriousness</sup> ~~into~~ <sup>going</sup> to tell my mother  
 that I had walked into a lamp post, & this I did  
 & was <sup>unhappily</sup> ~~walked~~ by ~~me~~ not so much for  
 forgetting out for telling such a ~~whopper~~.

In 1906, Harry & Abe & Frank, who  
 were already working, <sup>brought me my first</sup>  
 birthday with day <sup>paper</sup> <sup>of</sup> <sup>the</sup> <sup>Tel</sup> & a box  
 of chocolates & then all took me to the  
 show at the Curie, I shall never forget.

When my was about to be married in  
 Oct 1900 (he was the first of the gang to  
 go), the boys decided that his ~~most~~  
 urgent need was ~~money~~ <sup>by way of the</sup> <sup>value</sup>

 all over South Maida to a cold ~~chapel~~  
 rain in a ~~reach~~, and we later found out  
 from his sister <sup>pleas</sup> that he had ~~paid~~ for the  
 card with his last 10 cents.

I did not know more accidents to

 take time & space to do so. Furthermore I  
 will mention two other boys, not  
 members of the gang, <sup>but</sup> <sup>with</sup> <sup>whom</sup>

by me. I have found a ~~controversy~~ & a ~~dis-~~

wanted him to register in a pre-medical course  
— the boy's interests turned ~~and~~ readily  
toward business or anything dealing with

manufactures hard rubber products). <sup>very</sup> busy-

troubles at his plant. I became the recipient of  
Leon's difficulties. He was & is a glibly person;  
I can still recall him coming into my home  
when I was attending date one morning (while  
I was on the U.S.S. ship) at the Empire Refinery,  
& rushing upstairs shouting — "rich like

It does seem that from the very earliest I have shied away from scenes of too exuberant noise & bustle & crowd; further, as I have noted in our conversation, I have a shyness about meeting people, <sup>difficult</sup> ~~difficult~~ <sup>at</sup> ~~at~~ <sup>times</sup> ~~times~~ which I have had to consciously fight to overcome, and with this fear, I have ~~been~~ <sup>been</sup> ~~reluctant~~ <sup>reluctant</sup> ~~to~~ <sup>to</sup> ~~meet~~ <sup>meet</sup> ~~people~~ <sup>people</sup> for the first time I attribute ~~my~~ <sup>my</sup> ~~shyness~~ <sup>shyness</sup> ~~to~~ <sup>to</sup> ~~the~~ <sup>the</sup> ~~fear~~ <sup>fear</sup> ~~of~~ <sup>of</sup> ~~being~~ <sup>being</sup> ~~exposed~~ <sup>exposed</sup> ~~to~~ <sup>to</sup> ~~ridicule~~ <sup>ridicule</sup>, though what it's origin is I do not know.

Fifth: the library at Broad & Boyle  
etc of one of my early delights was ~~to~~  
~~to~~ borrowing books from this institu-  
tion, but when I was about 14 years old

came two men from our home  
I was badly beaten up by a group of  
Dentall boys when I was 14 & ~~sent to~~  
while returning from the library;  
from that time on Pop, with my not  
too unwilling agreement, insisted on  
"convoying" me to the library - and he  
would wait outside for some time

usually - Saturday nights  
as long as I did - while I made my crowd  
of books - I must admit that I was very  
much ashamed of this procedure  
& took pains to conceal it from the other  
boys; ~~but~~ but still I had been aban-  
doned by them on the occasion of the

stutter ambush, I was afraid <sup>that</sup> ~~my~~  
an affair might occur again. This  
dilemma, that is, the out of Pop  
convoying me to the library, lasted  
for two years - one less & I started to  
go to the library ~~with~~ & later I lost  
my fear altogether

Sixth: Tutoring & doing lessons for  
other boys, this is one of those ~~but~~ ~~desire~~  
~~stems~~ ~~desire~~, while to a certain extent was  
pleasant, still it resulted in my  
often getting into difficulties. From  
the beginning of my schooling I discovered  
that I had the happy faculty of being  
able to write the "compositions" & "essays"  
which were required - & with great

facility; ~~even~~ I was called by other  
boys & girls to do theirs for them &

I hurriedly agreed, but I must have been  
 for would indeed along creative efforts  
 on doing four or five in one night for  
 others & then, about 10 or 11 PM, would  
 discover that not only had I been busy but  
 also that I was getting sleepy. So I would  
<sup>go to bed</sup> & then stealthily awake at 5 AM & ~~try~~  
 frantically try to patch together some-  
 thing acceptable. I still remember that  
 one of my steadiest clients was my  
 neighbor the painter son - that had  
 had <sup>considerable</sup> ~~great~~ talent with a violin, but when it  
 came to writing he was hopeless, so an  
 extra (I paid) added a tutor, Mrs  
 helped him with his arithmetic &

in addition to his Hebrew  
 lessons

later algebra, I too ~~did~~ <sup>gave</sup> a fair amount  
 of help to classmates in other subjects  
~~found~~ however, I could never say or  
 to an appeal for schoolroom aid;  
 & since I had ~~submitted~~ to a considerable  
 degree inherited my's ability in  
 making the more obscure things clear,  
 I never lacked for opportunities to do so.  
~~But~~ <sup>nevertheless</sup> it must not be construed that I like  
 teaching, quite the opposite - it bored  
 me. But I do like helping people, <sup>with</sup>  
 particularly those who are ~~unable~~ <sup>unable</sup> ~~with~~  
 themselves. I had later, <sup>possibly</sup> ~~possibly~~  
 who will themselves work hard. <sup>Probably</sup>  
 that is why I was able to tutor successfully  
 quite a few boys for college entrance  
 last year. This is really a sequel to  
 his, the matter of tutoring. It & there is  
 so much of a record of quiet connected  
 with it that it will be told separately.

In almost any last week at high school, and  
 were given a written test based on Lebesgue  
 measure and metric, the English instructor  
 & head of the department, was a man  
 called Farber & he had only recently come  
 to Southern High from Frankfurt where the  
 standard of scholarship was somewhat  
 higher & the students were drawn from a  
 slightly better stratum of society. To most  
 of the boys, he was a holy terror. He told me  
 how narrow <sup>precisely</sup> <sup>he</sup> <sup>was</sup> <sup>in</sup> <sup>his</sup> <sup>judgment</sup> <sup>of</sup> <sup>the</sup> <sup>value</sup> <sup>of</sup> <sup>the</sup> <sup>work</sup> <sup>done</sup> <sup>by</sup> <sup>the</sup> <sup>students</sup> <sup>in</sup> <sup>the</sup> <sup>class</sup> <sup>and</sup> <sup>how</sup> <sup>often</sup> <sup>he</sup> <sup>had</sup> <sup>to</sup> <sup>re-  
 write</sup> <sup>papers</sup> <sup>for</sup> <sup>the</sup> <sup>public</sup> <sup>badges</sup>.  
 That narrow view of the literary ability of  
 a chemist was not what I needed in the  
 class, & quite to my surprise Farber  
 gave me the same papers to take home  
 & grade; there were some 25 questions  
 each requiring a few <sup>technical</sup> <sup>words</sup> <sup>of</sup> <sup>definition</sup>  
 as answers. Unfortunately for Helen  
 my Farber handed me the papers &  
 quickly I was deluged with requests to  
 please, please, help me pass the course.  
 So I sat up till 5 AM, filled in  
 answers, graded wrong answers  
 & supplied the correct ones & even faked  
 the answers to his questions. Every year and  
 when I was done everyone had a  
 passing grade. It has now been  
 20 years & still this incredibly  
 stupid trick & violation of a  
 trust double. And to top it all,  
 I lost the respect of a friend & a  
 man whom I trusted; I date on the  
 afternoon of the following day. Dr.  
 Farber visited me & said with  
 a sarcasm that still burns, "The  
 class did remarkably well, did  
 they not Harry?"

Fourth a - The purchase of the air rifle, when I was about 12, I became very desirous of obtaining an air rifle. Pop was earning very little then. But I kept pestering him, & finally the demand & saving was physically weary, & he finally promised that on this particular Friday night, a pay night, I would look out. From 4 o'clock on, though Pop was not due till 6 <sup>22</sup> ~~30~~ he started out to the woods looking for the long-awaited treasure. Finally Pop came - but not with a rifle. I was irascible, & ~~the~~ <sup>an</sup> amount of explanations about how badly the  $\frac{1}{2}$  ~~to~~ <sup>three</sup> dollar cost of the rifle was needed at home would comfort me, & to deeply because usually this ~~was~~ <sup>was</sup> the ~~powerful~~ <sup>powerful</sup> need of Pop's pay for the necessities of life was enough to comfort me.  I could not understand why this should  
 exist for oppression & we will, however, ~~not~~ <sup>try</sup> ~~three~~  
 major points of difference between  
 Pop & me, or I should say, where  
 we were distinctly dissatisfied in  
 & agreed by Pop. I believe:

a - I previously ~~mentioned~~ <sup>mentioned</sup> failure of  
 Pop to better himself by taking advantage  
 of his skills in mathematics &  
 bookkeeping - I see in the customs  
 we had in the very early twenties  
 when Pop saved offered the job  
 of "clerk" & treasurer of one of  
 the local "corporations" (a few  
 workers form of a co-operative  
 having & low society) & he  
 humbly refused, saying that  
 the office was a collection of  
 blowhards & parasites. Also, he  
 stubbornly refused to try to better his  
 spoken English, though he read  
 it fluently & can write well. Even  
 today Pop's English is poor. To  
 a certain extent Pop is entirely  
 admirable here, ~~but~~ <sup>but</sup> because ~~of~~  
 as he said "at Victor Company  
 my English is considered  
 among the best" - probably  
 he was right, considering how  
 much work that of the company  
 student's work. Also, Pop had an  
 innate dignity which kept him  
 from using the readily acquired  
 profanities of recent newcomers  
 to the United States.

b - occasionally Pop's passion for tools

would had him to make extra-  
 count (for us) purchases of various  
 things, <sup>wood</sup> chairs & water cans,  
 out of an especially long ~~intention~~ <sup>intention</sup> ~~my~~

Mr. ... had, and has always had, faith in me. When I was in my last year at Xavier University in Cincinnati and had run completely out of funds, it was you who dipped into his own wages salary & savings <sup>for</sup> put me through those last few months. Never have I ever heard a solitary word of complaint from him regarding the fact that I was I & not he who was enabled to go to college - true though it is, that I paid my own way; if anything, you always expressed pride in me.

Thirdly, his matter of

and I am sorry to say that Mr. ... always <sup>lived</sup> a life of his own with his own friends & there has <sup>never</sup> <sup>been</sup> dependence on me <sup>as in</sup> sometimes the case. He is <sup>undoubtedly</sup> the world's master & most careful person & when in the army the rigid insistence on everything in its proper place has only interested him in this direction. His room is a model of orderliness with stockings & <sup>socks</sup> & <sup>handkerchiefs</sup> carefully rolled up in their place. Mr. ... is a good boy.

Family finances, To discuss this, I must <sup>go</sup> <sup>into</sup> <sup>the</sup> <sup>whole</sup> <sup>subject</sup> into the whole subject. It has been stated that all through the early & middle twenties we were always with sufficient money for food & shelter, that is so, but when I began to work in 1928 & then brought home myable boys, the things changed. Pop was also working steadily then

& now would only take a minimal

 would bank the rest for me. Thus -

It is partly due to my mother's teaching that  
 women must be respected, partly  
 due to my reading in Frank

Very frankly, in 1907, I was a
